Press Release - New Collections 2009/2010

In September 2009 and ready for Christmas season Kokkino, a new designer of funky colourful jewellery, will be launching their new collections.

Eclipse Collection

Brand new collections based on large soft textures and rich gold detailing to create a wonderfully luxurious range of pendants, earrings and large cocktail bangles. With all of this collection, we can add and set diamonds into each gold detailed piece to create an even more beautiful look. With prices ranging from £110.00 through to £400.00 and covering the whole range they aren't expensive at all for an exclusive precious look that has been made by hand by designers here in the UK.

Revolution Collection

Our second new collection continues the circle theme but uses colour and form to create a new take on that staple pendant, the hoop or circle.

Using hand fired enamel on the pendant it creates a look which is fashionable and simple to wear with anything, whether it is a little black dress or the shirt to work.

There are 20 colours to choose from and 4 groupings of colours chosen for the colours of the winter season. With two sizes of necklace pendant, earrings, rings, and bracelets, the collection is large enough to offer a full look that will be the envy of all your friends. Prices range from £75.00 for a simple pendant on a chain through to £285.00 for a stacking ring set.

The collection has it all, colour, simplicity, and classic design.

Black & Gold Additions

Thirdly we are continuing to launch new additions to our current collections. Especially the black silver collection, ultimately the silver is oxidised in a process that gives a deep sumptuous black. The colour can then look spectacular against the black and completely change the look. For someone wanting a special unique look then this is the way to go. Prices vary depending on collection, the image shown here will retail at £400.00 for the bracelet.

New Eclipse Collection New Revolution Collection

Two new collections for winter 2009/2010 Subtle & soft surface texture with deep gold detailing, making the Eclipse Collection pure classic contemporary design.

Whereas vibrant vitreous enamel colours and the simplicity of design makes the Revolution Collection fashionable contemporary design, that will be wearable for many years.

Pricing is competitive as always with our work.

Choose these collections for Christmas 2009, they will be a success.

Kokkino

Bright, Beautiful and Bold, or Sleek, Sexy and Subtle is all possible with our jewellery and its all down to the simplicity of design.
